

## Aircond compressor belting

Posted by MyZafira - 20 Jul 2015 20:22

---

For original aircond compressor spec code 5pk1255 this is for 5 line pully if others like 6 line pully it will using different code no and normally refer to the old belt. Make sure you know which one for your pully compressor line either 5 or 6. It is using the same alternator belting....
